

ISLAMABD MEDICAL & DENTAL COLLEGE

2nd Annual Research Conference for Undergraduate/Graduate and Postgraduate Researchers

Guidelines for Poster Presentations

There will be dedicated time allocated on the Research day for poster viewing by the judges. Presenters will be required to present their poster in a brief 5-minute presentation followed by 2- minute question answer session.

Abstracts selected for poster presentation should use the following criteria:

1. Size specification: Posters should be of portrait orientation with a height of 4 feet and width of 3 feet. Template is provided at the end of this document.

2. Display of poster

Please bring your poster on Thursday, 26th September 2019 (between 8.00 a.m. to 9.00 a.m.) to fix it on boards at the venue of competition. Fixing materials will be provided. Authors are responsible for mounting their posters before the competition and removing them as soon as the session ends.

3. Content Guidelines

Posters should include the following components:

- Title
- Introduction
- Objective(s)/research questions(s)
- Methods with statistical analysis
- Results (Tables and figures are preferable as they are easier to understand, visually more attractive and less space consuming)
- Conclusion(s)
- References

4. Style Guidelines

Layout:

- Title of the poster, name(s) of authors, address where the work was carried out & contact details should be prominently displayed, together with a logo if appropriate.
- Abbreviations should be explained the first time they are used.
- Visual representation is preferable to text wherever possible.

Font and color:

- Sans serif fonts such as Arial or Helvetica should be the font style.
- 20-28 point is recommended for text and at least 72 point for the title.
- References should be limited to 5 and should be in Vancouver style & font size should be smaller than the poster text.

Figures and graphics:

- Figures and graphics should be of good quality. Legends and titles should accompany all figures, tables, photographs, etc.
- Graphs and charts should have an appropriate scale and labeled axes.

Abstract

Click here to insert your Abstract text. Type it in to copy and paste from your Word document to the source.

This text box will automatically re-size to your text. To turn off that feature, right click inside this box and go to **Format Shape**, **Text Box**, **Autofit**, and select the "Do Not Autofit" radio button.

To change the font style of this text box: Click on the border once to highlight the entire text box, then select a different font or font size that suits you. This text is Calibri 30pt, which is effectively 36pt at 20%, and is easily read up to 5 feet away on a 36" poster.

Zoom out to 20% to preview what this will look like on your printed poster.

Methods and Materials

Click here to insert your Methods and Materials text. Type it in to copy and paste from your Word document to the source.

Introduction

Genographics® has provided this template to assist in preparation of medical scientific research poster. The dimensions are set to 50" high by 30" wide but prints can be scaled up or down in size to any dimension with the 3:2 aspect ratio. For example, if you order a 60" x 36" poster using this template, we will print the file at 20% of its original size. **The most critical factor is that your template and poster dimensions must be proportional.**

Order your poster from Genographics and we will perform a free design review and advise you if we see anything that may be a concern for printing. We'll even help tidy things up.

We have more history with PowerPoint® than any other printing company. In fact, we've helped Microsoft® design the software and we've created all of the original color themes, templates, and clip art galleries. We know how to make your printed poster look just like it does on screen. Other printing companies and copy centers will blindly convert your file to another format prior to printing. This can result in text shifting, symbols changing, and altered colors. We know the secrets to avoid those issues. So choose Genographics for the most accurate reproduction available.

Table 1. Label in 20pt Calibri.

	Heading	Heading	Heading
Item	800	790	4001
Item	356	856	290
Item	228	134	238
Item	954	875	976
Item	324	325	301

Conclusions

Click here to insert your Conclusions text. Type it in to copy and paste from your Word document to the source.

feature, right click inside this box and go to **Format Shape**, **Text Box**, **Autofit**, and select the "Do Not Autofit" radio button.
